

Administration

Configuration name : LoadWizardProLidar
Description of application :
Responsible person :
Machine ID :
Configuration date : 9/7/2026 10:11:47 PM
Signature :

Device functionFunction mode

Operation Mode Protection Mode : Single Protection Mode

Contacting monitoring / E-Stop inputs

EDM OSSD A : Inactive
Use of the inputs SE1 and SE2 : Monitoring of field pair switchover

Protective Function AProtective function

Description :

Mode for field pair activation and changeover

Field pair activation A : Fixed selection of one field pair

Bank A1Resolution

Maximal vehicle speed : 0 mm/s
Description :
Resolution : 30 mm

Response time

Response time : 200 ms

Start-up behavior

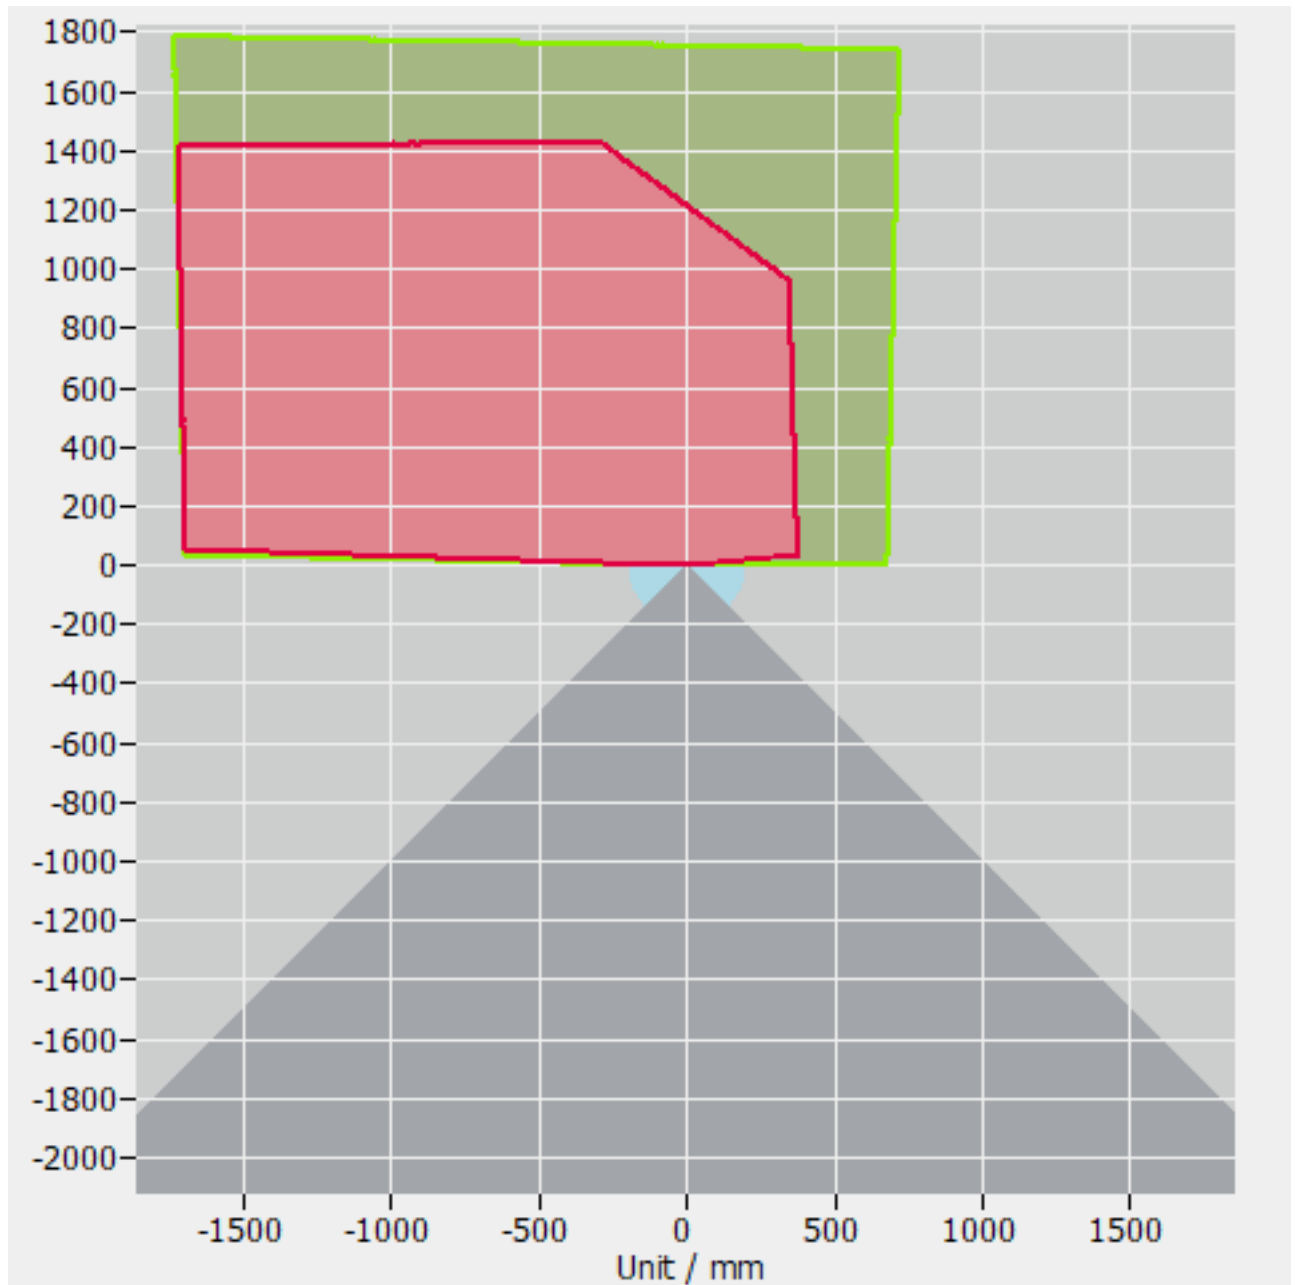

Start behavior : Start/restart interlock

A1.1

Field pair

Description :

Field pair monitoring : Active

Installation position: Normal

Monitoring of field pair changeover

Monitoring : Inactiv

Reflectors

Detect reflectors

Reflector analysis : Inactive
